

## SM<sup>2</sup> - The Musical Formula That Bridges The Generation Gap...

Compelling lyrics, powerful vocals, intricate harmonies, musical versatility, and multi genre appeal that bridges the generation gap like nothing you've ever seen before...the DNA doesn't lie!!! In 2008, award winning singer/songwriter Sherri Mullen made music a "family affair" as she teamed up with her prodigy guitarist/son Shane, for acoustic duo and full band shows. The Mother/Son duo honed their skills & grew their set list while touring in support of Sherri's third independent release called "Fearless" (winner of the 2007 Central Pennsylvania Best New CD Award). As time progressed, this unlikely pair transformed into a well oiled music machine who began picking up new fans of all ages! Since then "Team Mullen" has never looked back.

SM<sup>2</sup> (pronounced "SM squared") was born in late 2009 when Sherri & Shane decided to officially team up to co-write for a new album of original material . Their debut release "Strange Symmetry" is a 15 track musical journey that showcases two prolific songwriters with stunning vocal and musical flexibility, seamlessly navigating through various musical styles. Sherri & Shane refuse to be pigeonholed into a specific genre, instead they allow each song to reveal it's own unique character without restriction. Songwriters by day...gigging warriors by night, the two found common ground rarely seen in a mother/son relationship, and forged a musical bond that transcends boundaries. Their songwriting, vocal prowess, & musicianship will capture your imagination, make you laugh, cry, think, & dream, all while tapping your foot and singing along!

The one/two punch of Mullen & Mullen make this one of the strongest and most unique musical offerings around, appealing to all age groups, and embraced by fans of Americana, Blues, Country and Rock genres alike! The on stage contrast between the lively, fun loving, flamboyant Mother and the laid back, mysterious, musing Son is truly magical. These two are determined to make their mark on the music world, but more importantly...they want their music to mean something to those that listen.
